Species	Date(s) Observed	Spawning	HABITAT	
			REGIONAL OFFICE	REARING
Dolly varden	10-28-84	✓		
Coho Salmon	7-8-85		✓	

Comments: Provide any clarifying information, including number of fish observed, Location of fish survey data, etc.

I observed about 10 Dolly varden spawning just above the confluence with Nataga Creek. On July 8 I set two baited minnow traps in the creek and captured one coho salmon. Approximately 10 salmon fry were milling near one of the traps.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.
